

DirectoryIndex index.py

#AddHandler cgi-script-debug .py

RewriteEngine off

In .htaccess, mod_rewrite loops over the file when it hits an

"L" flag. This rule prevents it.

RewriteCond %{ENV:REDIRECT_STATUS} =200

RewriteRule ^ - [L]

Spiff's web/ folder is directly accessible.

RewriteCond %{REQUEST_URI} ^/web/. *\$

RewriteRule ^ - [L]

Spiff's data/repo/ folder is also directly accessible.

RewriteCond %{REQUEST_URI} ^/data/repo/. *\$

RewriteRule ^ - [L]

By default, refer anything so that the path is passed through the

page argument. Exception: The installer/ directory.

RewriteCond %{REQUEST_URI} !.*installer/. *\$

RewriteRule ^(.*)/\$ index.py?page=\$1 [QSA,L]
