#####
```

```
# Set home path here (line 19).
```

```
#
```

```
# That is, relative to the main URL, set the path to index.php.
```

```
# Example 1: If you access index.php via www.url.tld/index.php, enter RewriteRule
```

```
^([^\?]*)$ /index.php?path=$1 [NC,L,QSA]
```

```
# Example 2: If you access index.php via www.url.tld/path/index.php, enter RewriteRule
```

```
^([^\?]*)$ /path/index.php?path=$1 [NC,L,QSA]
```

```
# Example 3: If you access index.php via www.url.tld/iiigel/index.php, do not change  
anything
```
