

NOTE: The source for this file is at site-author/content/.htaccess

FIXME: The version-specific entries need to be updated after each release.

FIXME: Do we still need this? See FOR-877

AddDefaultCharset UTF-8

AddType application/x-xpinstall .xpi

Some old documents need special handling

RedirectMatch ^/mail-archives(.*) http://forrest.apache.org/mail-lists\$1

RedirectMatch .*proposal-asf-publish.html http://people.apache.org/~crossley/proposal-asf-publish.html

RedirectMatch ^/0.7/events(.*) http://forrest.apache.org/events\$1

RedirectMatch ^/docs\..html http://forrest.apache.org/versions/

RedirectMatch ^/build(.*) http://forrest.apache.org/dev/build\$1

Redirect /plugins/0.8-dev http://forrest.apache.org/plugins/0.8

Maintain some old URLs to point to current release

Redirect /docs/plugins http://forrest.apache.org/pluginDocs/plugins_0_80

Some convenience URLs.

Redirect /docs/dev http://forrest.apache.org/docs_0_90

Redirect /pluginDocs/dev http://forrest.apache.org/pluginDocs/plugins_0_90

Some special docs need to point to the development version

RedirectMatch ^/faq(.*) http://forrest.apache.org/docs_0_90/faq\$1

RedirectMatch ^/docs/faq(.*) http://forrest.apache.org/docs_0_90/faq\$1

RedirectMatch ^/changes(.*) http://forrest.apache.org/docs_0_90/changes\$1

Options -MultiViews

Some convenience URLs.

Redirect /docs http://forrest.apache.org/docs_0_80

Redirect /howto http://forrest.apache.org/docs_0_80/howto

Some moved documents

handle all DTDs etc.

<Files ~ "\.(dtd|mod)\$">
