```
# If you would like X-Cart to show informative message for errors caused  
# by opening of missing/deleted files (HTTP Error 404), please uncomment  
# the line below.
```

```
# ErrorDocument 404 /404.php
```

```
# NOTE: If you installed X-Cart into a subfolder (for example, to /store folder, so  
# it is available at http://www.example.com/store/home.php), you need to specify  
# full relative path to the 404.php script, for example, as follows:
```

```
# ErrorDocument 404 /store/404.php
```

```
# Show default error document for 404 errors caused by opening of image/media files.
```

```
<Files ~ "\.(gif|jpe?g|png|jst|css|swf|ico)$">
```

```
# ErrorDocument 404 default
```

```
</Files>
```

```
#
```

```
#ErrorDocument 401 default
```

```
#
```

```
<Files ~ "\.(tgz|rar|zip|sql)$">
```

```
# Order Deny, Allow
```

```
# Deny from all
```

```
</Files>
```

```
# Clean URLs [[[
```
