

If you change this, remember to change the RewriteRule entry further down, too!

```
AddCharset utf-8 html
```

```
<Files *.txt>
```

```
    Deny from all
```

```
</Files>
```

```
<Files config.pl>
```

```
    Deny from all
```

```
</Files>
```

```
RedirectMatch 403 /( _bak| extras| include) /
```

```
<IfModule headers_module>
```

```
    <Files *.html>
```

```
        Header set Expires "Mon, 26 Jul 1997 05: 00: 00 GMT"
```

```
        Header set Pragma "no-cache"
```

```
        Header set Cache-Control "max-age=0; must-revalidate; no-cache"
```

```
        Header unset Vary
```

```
    </Files>
```

```
</IfModule>
```

```
<IfModule rewrite_module>
```

```
    RewriteEngine On
```

```
    RewriteRule (^|/)(res|thumb|src)[/\.]*$ redirect_up.htm [L]
```

```
    RewriteCond %{HTTP_ACCEPT} application/xhtml+xml
```

```
    RewriteRule \.html$ - [T=application/xhtml+xml; charset=utf-8]
```

```
</IfModule>
```

```
<IfModule dir_module>
```

```
    DirectoryIndex index.html kareha.pl
```

```
</IfModule>
```

```
Options +ExecCGI
```

```
AddHandler cgi-script cgi.pl
```
