

Enable rewrite

RewriteEngine On

It will not redirect us if it is an existing: d: Directory, f: file, l: link

RewriteCond %{REQUEST_FILENAME} !-d

RewriteCond %{REQUEST_FILENAME} !-f

RewriteCond %{REQUEST_FILENAME} !-l

This will take any url-request and direct it to "index.php".

"?url=\$1" provides \$_GET['url']

RewriteRule ^(.+)\$ index.php?url=\$1 [QSA,L]
