

RewriteEngine on

Pass existing files.

RewriteCond %{REQUEST_FILENAME} -f

RewriteRule ^(.*)\$ - [1ast,L,NE]

Pass doxygen.

RewriteRule ^doxygen - [1ast,L,NE]

Pass some fixed files that don't exist (to standard 404 that bots can recognise)

RewriteRule ^crossdomain.xml - [1ast,L,NE]

RewriteRule ^sitemap.xml - [1ast,L,NE]

Warning: actions can't have the same name as a directory.
