

```
# $Id: .htaccess 3781 2006-06-16 04:33:28Z drbyte $
```

```
# The following disables mod_security in apache, which may be necessary during  
installation
```

```
# This file should only be used INSIDE the zc_install folder. Using the following  
directive elsewhere can
```

```
# cause security problems on your site. Talk to your webhost if you are concerned about  
its effects.
```

```
<IfModule mod_security.c>
```

```
    SecFilterEngine Off
```

```
    SecFilterScanPOST Off
```

```
</IfModule>
```

```
## If for some reason the above doesn't produce the desired results, simply remove the #  
from the
```

```
## following lines:
```

```
#SecFilterEngine off
```

```
#SecFilterScanPOST Off
```

```
#php_value default_charset UTF-8
```
